PROGNOSIS HEALTH INFORMATION SYSTEMS' CHARTACCESS 4.0 RECEIVES ONC-ATCB 2011/2012 CERTIFICATION

[Houston, October 4, 2010] – Prognosis Health Information Systems announced today that ChartAccess 4.0 is 2011/2012 compliant and was certified as a Complete EHR on September 30, 2010, by the Certification Commission for Health Information Technology (CCHIT®), an ONC-ATCB, in accordance with the applicable hospital certification criteria adopted by the Secretary of Health and Human Services. The 2011/2012 criteria support the Stage 1 meaningful use measures required to qualify eligible providers and hospitals for funding under the American Recovery and Reinvestment Act (ARRA).

“Prognosis Health Information Systems is pleased that ChartAccess 4.0 was in the first batch of products tested and designated as a certified EHR in accordance with the ONC-ATCB 2011/2012 certification program. We believe that we can help our hospital clients achieve meaningful use and receive incentives for Stage 1 functionality – and ultimately help them leverage our technology to improve clinical care and the overall patient experience,” says Ramsey Evans, CEO of Prognosis.

The ONC-ATCB 2011/2012 certification program tests and certifies that Complete EHRs meet all of the 2011/2012 criteria and EHR Modules meet one or

more – but not all – of the criteria approved by the Secretary of Health and Human Services (HHS) for either eligible provider or hospital technology.

“CCHIT is pleased to be testing and certifying products so that companies are now able to offer these products to providers who wish to purchase and implement certified EHR technology and achieve meaningful use in time for the 2011-2012 incentives,” said Karen M. Bell, M.D., M.S.S., Chair, CCHIT.

2011/2012 certification conferred by CCHIT does not represent an endorsement of the certified EHR technology by the U.S. Department of Health and Human Services nor does it guarantee the receipt of incentive payments.

The clinical quality measures to which ChartAccess 4.0 has been certified include: NQF 0371; NQF 0372; NQF 0373; NQF 0374; NQF 0375; NQF 0376; NQF 0435; NQF 0436; NQF 0437; NQF 0438; NQF 0439; NQF 0440; NQF 0441; NQF 0495; NQF 0497.

About Prognosis

Prognosis Health Information Systems, Inc., aims to improve the quality and safety of patient care in America by providing highly affordable, functional and usable information systems for hospitals. The Houston-based company, which was built by leveraging the healthcare industry experiences of a business software vendor and a medical records service and software provider, offers the information technology, service and support that makes EHR success a realistic goal for all healthcare organizations. Prognosis offers ChartAccess, a Comprehensive EHR developed by clinicians that makes it easy to afford, use, implement and maintain an electronic health records system. About CCHIT

The Certification Commission for Health Information Technology (CCHIT®) is an independent, 501(c)3 nonprofit organization with the public mission of accelerating the adoption of robust, interoperable health information technology.

The Commission has been certifying electronic health record technology since 2006 and is approved by the Office of the National Coordinator for Health Information Technology (ONC) of the U.S. Department of Health and Human Services (HHS) as an Authorized Testing and Certification Body (ONC-ATCB). More information on CCHIT, CCHIT Certified® products and ONC-ATCB certified electronic health record technology is available at <http://cchit.org>.

About ONC-ATCB 2011/2012 certification

The ONC-ATCB 2011/2012 certification program tests and certifies that EHR technology is capable of meeting the 2011/2012 criteria approved by the Secretary of Health and Human Services (HHS). The certifications include Complete EHRs, which meet all of the 2011/2012 criteria for either eligible provider or hospital technology and EHR Modules, which meet one or more – but not all – of the criteria. ONC-ATCB certification aligns with [Health Information Technology: Initial Set of Standards, Implementation Specifications, and Certification Criteria for Electronic Health Record Technology](#) published in the Federal Register in July 2010 and strictly adheres to the [test procedures](#) published by the National Institute of Standards and Technology (NIST) at the time of testing. ONC-ATCB 2011/2012 certification conferred by the Certification Commission for Health Information Technology (CCHIT®) does not represent an endorsement of the certified EHR technology by the U.S. Department of Health and Human Services nor does it guarantee the receipt of incentive payments.
